

# CREATING CONNECTED ECOSYSTEMS TO DELIVER BUSINESS VALUE

Unlock growth opportunities with Sutherland's market-leading IoT and 5G solutions.

The world is increasingly connected. Businesses need to be too. By combining 5G and IoT, enterprises today can build hyper-connected ecosystems where devices communicate in real-time. Transcend traditional connectivity boundaries to unlock unparalleled opportunities that drive growth, efficiency, and productivity.

## INTELLIGENT SOLUTIONS POWERED BY TRUE CONNECTIVITY

Together, 5G and IoT enable unrivaled capabilities: increased capacity, lower latency, and faster speeds that facilitate quicker data acquisition for smart insights. Sutherland's integrated systems and solutions turn data into actionable intelligence and help you create or improve products, services, and business processes across industries.

Harness the synergy of the best digital technologies and transform into a hyper-connected enterprise.

## We orchestrate the integration of multiple systems that:

- / Leverages cutting-edge, digital technologies to enable a streamlined business workflow.
- / Collects, transforms, and normalizes data from IT, IoT, and OT devices into a multi-tenanted, cloud-hosted, scalable platform.
- / Analyzes data, automates processes, and provides role-based business intelligence and visualization.

## OUR SOLUTIONS COMBINE THE BEST OF DIGITAL TECHNOLOGIES

5G

5G /

Connectivity-As-A-Service

Integrated Data Ecosystems

## A NEW WAY TO DRIVE INSIGHTS

- / **Consultative Approach.** Conducting a maturity assessment of existing processes and technology, identifying the gaps, and then designing and implementing the right future-ready technology landscape and operating model.
- / **Seamless Integration.** Unifying siloed IT, OT, and IoT systems, with significant reduction in time to integrate, minimal CAPEX investment, and no need to 'rip-and-replace'.
- / **Advanced Analytics.** Leveraging AI and machine learning to unlock real-time, data-led insights needed to reduce costs, meet compliance, and lower carbon emissions.
- / **Services Management.** Bringing SLA management for all contractors and vendors into a centralized platform.

## WE DELIVER

### *A Single Source of Truth.*

Integrate your siloed systems and IoT solutions, and clean all data with a structured schema, enabling data-driven decision-making.

### *360-Degree Visibility.*

Provide macro and micro views of operations to stakeholders across people, assets, spaces, and processes.

### *Actionable Intelligence.*

Create a standardized approach regardless of size of operations with predictive analytics and out-of-the-box AI/ML capabilities.

Sutherland is an experience-led digital transformation company.

Our mission is to deliver exceptionally designed and engineered experiences for customers and employees. For over 35 years, we have cared for our client's customers, delivering measurable results and accelerating growth. Our proprietary, AI-based products and platforms are built using robust IP and automation. We are a team of global professionals, operationally effective, culturally meshed, and committed to our clients and to one another.

We call it One Sutherland.
